85%

Executive Summary

Test: Analyst - Batch 1

Domain: programming

Level: senior

Questions: 0/3

Accuracy: 33%

Speed: 0 minutes

Critical Skill Gaps

- Question 46 - D. Decorator
- Question 47 - C. Decorator Pattern

Strength Areas

- Developing strengths

Training Recommendations

Immediate:

Short Term:

Industry Analysis

Market Demand: High

Salary Range: \$45K-65K

Industry Percentile: Bottom 30%

Competition Level: High

Suitable Roles:

- Junior Developer
- QA Analyst
- Support Engineer

Predictive Analytics

Future Performance: 48%

Promotion Readiness: 48%

Learning Curve: Steep Learning Required

Time to Improve: 6-9 months

AI-Powered Insights

Overall Assessment: Foundation level - Focus on core competency building

Growth Potential: 4/10

Key Findings:

- Strong foundational concepts but needs practical application
- Limited skill gaps with targeted improvement opportunities
- Consistent performance pattern with clear improvement trajectory
